HQ WARNER ROBINS AIR LOGISTICS CENTER (AFMC)
ROBINS AIR FORCE BASE, GEORGIA**

APPENDIX "C"

PURCHASE REQUEST: FD2060-03-40431

DATE: 12 Dec 02

INDUSTRIAL SAFETY REQUIREMENTS

Guided Missile Circuitry Test Set, TS-4108/G

(Herein Referred To As MBTS, (Missile Built-In-Test (BIT) Test Set))
Production

SECTION I - GENERAL REQUIREMENTS

A. Safety Program Requirements:

1. As a minimum, the contractor shall conform to all applicable Occupational Safety and Health Administration (OSHA) Standards and National Fire Protection Association (NFPA) Standards at their facilities for the protection of DOD property entrusted by this contract.
2. The contractor will conduct routine and recurring surveillance to ensure the safety requirements of this contract are enforced. Competent personnel shall be used to perform the surveillance.
3. The contractor shall ensure subcontractors comply with the safety provision of this contract, as applicable.
4. All contractor personnel shall be trained and qualified to perform their job safely.

B. Mishap Notification:

1. The contractor shall notify WR-ALC/SEG (Safety Office) and the ACO, or a designated Government Representative (GR) within one (1) hour of all mishaps or incidents at or exceeding \$2,000 (material + labor) in damage to DOD property entrusted by this contract. This notification requirement shall also include physiological mishaps/incidents. A written or e-mail copy of this mishap/incident notification shall be sent within three calendar days to the GR, who will forward it to WR-ALC/SEG (Safety Office). For information not available at the time of initial notification, the contractor shall provide the remaining information not later than 20 calendar days after the mishap, unless extended by the ACO. Mishap notifications shall contain, as a minimum, the following information:
 - (a) Contract, Contract Number, Name and Title of Person(s) Reporting
 - (b) Date, Time and exact location of mishap/incident
 - (c) Brief Narrative of mishap/incident (Events leading to accident/incident)
 - (d) Cause of mishap/incident, if known
 - (e) Estimated cost of mishap/incident (material and labor to repair/replace)
 - (f) Nomenclature of equipment and personnel involved in mishap/incident
 - (g) Corrective actions (taken or proposed)
 - (h) Other pertinent information.

2. If requested by Government Personnel or designated government representative, the contractor shall immediately secure the mishap scene/damaged property and impound pertinent maintenance and training records, until released by the WR-ALC Safety Office. Also, the contractor and the subcontractors shall cooperate fully and assist government personnel until the investigation is finalized and closed out.
3. Safety requirements listed in this package that do not relate to the contractor's operations or services shall be considered self-deleting as mutually agreed by the contractor and the ACO.

SECTION II – SPECIFIC REQUIREMENTS

The contractor prepared Safety Plan shall clearly define procedures, personnel qualifications, facilities, required equipment and other attributes necessary to fulfill the following elements for the protection of government personnel and property. The Government Flight Representative (GFR) shall approve only those company procedures that meet the intent of the indicated benchmarks, with the exception of Mishap Notification/Reporting procedures. The contractor shall meet the Mishap Notification requirements as written in Section I, paragraph B in this Appendix C.

<u>ELEMENT REQUIRED</u>	<u>REFERENCED BENCHMARK</u>
Grounding and Bonding	T.O. 00-25-172
Material Handling Equipment (MHE)	Applicable manufacturers specifications and ANSI standards
Handling, Storage and Use of Flammable/Combustible Liquids	NFPA 30, NFPA 33, DoD 4140.25 (for POL Storage)
Batteries	29 CFR 1910.178 AND 29 CFR 1910.305
Liquid Gaseous Oxygen/Cryogenics	T.O. 00-25-172, manufacturer's criteria
System modifications, which alter form, fit or function	MIL Standard 882C
Housekeeping	29 CFR 1910.141
Soldering	T.O. 00-25-234

Welding

NFPA 410, NFPA 51B

Electronic/Electrostatic Discharge
Sensitive (ESD) Components

MIL HDBK 263B, T.O. 00-25-234
MIL-STD-1686C

Facility Fire Protection

NFPA 13, 70, 72, 409 and 410
